Since I am dealing with so far completely unknown factors regarding my future official employment, I consider it fair to make the following suggestion:

No ties should exist between the Organization that I have served so far and myself until such time when security and fertility of my future work allow a reestablishment. The reasons are:

- a. I will endeavor to obtain as important a position as possible either in the German Foreign Service or with the Amt fuer Verfassungsschutz. I myself prefer the Foreign Service.
- b. Whether and when this is possible cannot be predicted.
- c. Even when this target should be reached, it is probable that I will be under German surveillance for some time. If found out, my work for the United States could cause embarrassment.

I therefore feel that I should propose a separation for the time being. I would suggest that I be given an address which I could contact when conditions develop the way I hope they will. I finally want to confirm my unswerving faith in the United States and my willingness to work for the U.S. Government at any time.
